SCREEN PRINTING

A versatile and cost-effective method that uses ink pushed through a stencil (screen) onto fabric. Ideal for bold designs with solid colors.

PUFF PRINT

A raised print created with heat-reactive ink that expands when cured. Adds texture and a 3D feel to graphics or text.

EMBROIDERY

Thread-stitched designs that are durable and upscale. Perfect for logos and smaller detail elements on fleece and polos.

APPLIQUE

A fabric patch is stitched onto a garment to create a bold, multi-layered look. Commonly used in collegiate apparel and letterman styles.

SUBLIMATION

A dye process where ink is transferred into the fabric itself, creating vibrant, full-color prints. Best on polyester or light-colored garments.

CHENILLE

A plush, looped yarn often used in varsity lettering and patches. Soft to the touch and visually rich in texture.

DTG PRINTING

High-resolution digital printing directly onto garments. Ideal for complex or photo-realistic designs with gradients.

TACKLE TWILL

Similar to appliqué but uses twill fabric letters or designs sewn onto garments. Known for its classic, athletic appearance.
